

Uninstalling A Program on Windows Vista

1. Open Programs and Features by clicking the Start button , clicking Control Panel, clicking Programs, and then clicking Programs and Features.
2. Select a program, and then click Uninstall. If you are prompted for an administrator password or confirmation, type the password or provide confirmation, then simply follow the prompts.
3. When the Uninstaller finishes removing the program, click the Close button to close the Add or Remove Programs dialog box and to return to the Control Panel window.
4. Please note that some programs may ask you to restart your computer when complete. Please do so if asked.
